Straight facts about riding! A Twist of the Wrist, the acknowledged number one book on rider improvement for ten years straight, brought riders worldwide to a new understanding of vital

riding skills. Uncovers and traces, action by action, the direct links between man and machine.

The definitive international history of one of the world's most successful rally cars. Covers every Lancer model - including all special editions, and Dodge, Colt, Plymouth, Valiant, Eagle, Proton and Hyundai variants - from 1973 to date. Includes a Foreword by Shinichi Kurihara, Mitsubishi's Evo team leader.

"The combination of scientific and institutional integrity represented by this book is unusual. It should be a model for future endeavors to help quantify environmental risk as a basis for good decisionmaking."--William D. Ruckelshaus, from the foreword. This volume, prepared under the auspices of the Health Effects Institute, an independent research organization created and funded jointly by the Environmental Protection Agency and the automobile industry, brings together experts on atmospheric exposure and on the biological effects of toxic substances to examine what is known--and not known--about the human health risks of automotive emissions.

This volume, and its companion, *Industrial Technology Development in Malaysia*, examine and evaluate Malaysian industrialization in terms of its experience of and prospects for industrial technology development. The focus is on role played by state-sponsored innovation in the process economic development and in the context of national development strategies. *Technology, Competitiveness and the State*, provides a valuable analysis of the technological development of a Newly Industrializing Country and reflects on whether existing development strategies can be maintained in the wake of the financial crises sweeping the East Asian economies.

Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The I-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by *Old Cars* magazine.

Allan Fraser, mountaineer and computer scientist, thinks little of the mysterious deaths that have occurred at the Scottish headquarters of his computer company. But as events lead him to the South American Andes he is forced to call upon all the skills and resources of his separate lives.

This is the only book that completely lists accurate technical data for all cars imported into the U.S. market from 1946-2000. With many imports approaching the antique status, this book will be a big seller across all generations of car enthusiasts. From the grandiose European carriages of the late Forties to the hot, little Asian imports of the Nineties, every car to grace American roadways from across the Atlantic and Pacific is carefully referenced in this book. Foreign car devotees will appreciate the attention given to capturing precise data on Appearance and Equipment, Vehicle I.D. Numbers, Specification Charts, Engine Data, Chassis, Technical Data, Options and Historical Information. Collectors, restorers and car buffs will love this key book from noted automotive authors, James Flammang and Mike Covello.

As part of ESCAP's efforts to enhance industrial development, it implemented a project on the "promotion of intraregional trade .. in the automotive sector" in collaboration with the Korea Automobile Manufacturer's Association and funded by the Korean government. A regional consultative meeting was held in Seoul, 10-12 December 2001. This publication is a compilation of documents presented at the meeting, including a comprehensive study and survey result on the regional automotive industry.
