Colossal: The Cobra Symbol is a story that will stay with you forever. It is a battle of fact and fiction. The story uses many historical events and personalities to boost the interest of the reader. It starts where humanity is believed to have taken its first step and continues to present day Munich, Bangalore, Delhi and the mysterious village of Manchale. It is difficult to decide a genre for the book as you will discover a twist in the tale after every few pages, a hint of romance throughout, sarcasm in the dialogues and drama throughout. In short it is the story of two terrorists who are undercover form past two decades in the country cooking up a plan, the key to their plan lies with a young man who is completely unaware and is mourning the separation of a loved one. Unknown to him he holds secrets that dates back to the time when God's greatest messengers walked the earth. The journey of the characters is shown through continuous flashbacks and instances from their memories. It is surely a tale that is colossal in nature and will enchant you with its magic.

India has been a soft target for enemy nations Pakistan and China. The conflicts have not stopped even with presence of nuclear weapons in arsenals of all three countries. This story explores the events that could happen when a politically unstable Pakistan dependent on financial, military and political support from China starts yet another misadventure against India. What happens when the weak political leadership of India has to face an imminent nuclear threat from not just Pakistan but China too?

Jews who have made India their home have flourished without adverse discrimination. Of this, the Baghdadi Sephardic community is very small in number but has produced one of India's greatest contemporary soldiers, Lt Gen. Jack Jacob. This is his fascinating story. As a small boy, Jacob, who was from a business family, was sent to a residential public school in Darjeeling along with his two brothers. When the Second World War broke out, Jacob without informing his family joined the army in 1941 to fight against the Nazis! After Independence, Gen. Jacob became a gunnery instructor for some time and subsequently was trained in an advanced Artillery and Missile course at Fort Sill in the US. A quick learner, he commanded infantry and artillery brigades, headed the artillery school, and finally the Eastern Army. Rubbing shoulders with some of the stalwarts who strode the Indian political and military arena in those times, Gen. Jacob sometimes fell foul of his bosses and twice came close to resigning. But he stuck on and the pinnacle of his career came in 1971, when he planned and oversaw operations leading to the fall of Dacca and obtained an unconditional public surrender, the only one in history, of Gen. Niazi and his army of 93,000. Written lucidly, this autobiography comes to life as a historical document recapitulating some of the most important events of the 1960s to the 90s - from the defeat of

the Naxalites in West Bengal, to the problems of Nagaland and Sikkim and the politics of Goa and Punjab. This is not only the story of the life of one great soldier, but provides glimpses of some of the most influential and colourful personalities who wrote the history of those tumultuous times.
