Eliminate toxins from your diet and transform the way you feel in just 21 days with this national bestseller full of shopping lists, meal plans, and mouth-watering recipes. Did you know that your fast food fries contain a chemical used in Silly Putty? Or that a juicy peach sprayed heavily with pesticides could be triggering your body to store fat? When we go to the supermarket, we trust that all our groceries are safe to eat. But much of what we're putting into our bodies is either tainted with chemicals or processed in a way that makes us gain weight, feel sick, and age before our time. Luckily, Vani Hari -- aka the Food Babe -- has got your back. A food activist who has courageously put the heat on big food companies to disclose ingredients and remove toxic additives from their products, Hari has made it her life's mission to educate the world about how to live a clean, organic, healthy lifestyle in an overprocessed, contaminated-food world, and how to look and feel fabulous while doing it. In The Food Babe Way, Hari invites you to follow an easy and accessible plan that will transform the way you feel in three weeks. Learn how to: Remove unnatural chemicals from your diet Rid your body of toxins Lose weight without counting calories Restore your natural glow Including anecdotes of her own transformation along with easy-to-follow shopping lists, meal plans, and tantalizing recipes, The Food Babe Way will empower you to change your food, change your body, and change the world.

This book, Current Paediatrics, radically offers a new way for medical students, paediatric specialist trainees, paediatricians, and paediatric nurses to access practical management advice.
