Please note this title is suitable for any student studying: Exam Board: AQA Level: A Level Subject: Chemistry First teaching: September 2015 First exams: June 2017 Fully revised and updated for the new linear qualification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course whilst delivering the maths, practical and synoptic skills needed to succeed in the new A Levels and beyond. The book uses clear straightforward explanations to develop real subject knowledge and allow students to link ideas together, while developing essential exam skills.

Expand and challenge your knowledge and understanding of Physics with this updated, all-in-one textbook for Years 1 and 2 that builds mathematical skills and provides practical assessment guidance. Written for the AQA A-level Physics specification, this revised textbook will: - Offer support for the mathematical requirements of the course with worked examples of calculations and a dedicated 'Maths in physics' chapter. - Measure progress and assess learning throughout the course with 'Test yourself' and 'Stretch and challenge' questions. - Support all 12 required practicals with applications, worked examples and activities included in each chapter. - Develop understanding with free online access to 'Test yourself' answers and 'Practice' question answers\*.

AQA Chemistry is the only set of resources to have been developed with, and exclusively endorsed by, AQA, making them the first choice to support the new AQA specification for AS and A2. With a range of truly blended resources, AQA Chemistry offers complete coverage and support through a variety of printed and electronic media. By working closely with AQA, Nelson Thornes have produced resources that will give students and teachers all they need to work through the specification with complete confidence.

**#1 NEW YORK TIMES BESTSELLER • NEWBERY MEDAL WINNER • NATIONAL BOOK AWARD WINNER** Dig deep in this award-winning, modern classic that will remind readers that adventure is right around the corner--or just under your feet! Stanley Yelnats is under a curse. A curse that began with his no-good-dirty-rotten-pig-stealing-great-great-grandfather and has since followed generations of Yelnatses. Now Stanley has been unjustly sent to a boys' detention center, Camp Green Lake, where the boys build character by spending all day, every day digging holes exactly five feet wide and five feet deep. There is no lake at Camp Green Lake. But there are an awful lot of holes. It doesn't take long for Stanley to realize there's more than character improvement going on at Camp Green Lake. The boys are digging holes because the warden is looking for something. But what could be buried under a dried-up lake? Stanley tries to dig up the truth in this inventive and darkly humorous tale of crime and punishment—and redemption. "A smart jigsaw puzzle of a novel." —New York Times \*Includes a double bonus: an excerpt from *Small Steps*, the follow-up to *Holes*, as well as an excerpt from the New York Times bestseller *Fuzzy Mud*.

Examining international case studies including USA, Asia, Australia and New Zealand, Laurajane Smith identifies and explores the use of heritage throughout the world. Challenging the idea that heritage value is self-evident, and that things must be preserved because they have an inherent importance, Smith forcefully demonstrates that heritage value is not inherent in physical objects or places, but rather that these objects and places are used to give tangibility to the values that underpin different communities and to assert and affirm these values. A practically grounded accessible examination of heritage as a cultural practice, *The Uses of Heritage* is global in its benefit to students and field professionals alike.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE English Language qualifications. Approved for the AQA GCSE English Language 2015 specification, this print Student Book is designed for students targeting Grades 1 to 5 and above. Featuring a wide range of 19th-, 20th- and 21st-century texts, this resource has spelling, punctuation and grammar support integrated throughout. It also contains assessment tests and in-depth exam preparation, including two full practice papers. See also our Progress print and digital pack, which comprises a Progress print Student Book, a Writing Workshop print Student book, enhanced digital editions of each and free Teacher's Resources.

Ensure your students get to grips with the core practicals and develop the skills needed to succeed with an in-depth assessment-driven approach that builds and reinforces understanding; clear summaries of practical work with sample questions and answers help to improve exam technique in order to achieve higher grades. Written by experienced teacher Nora Henry, this Student Guide for practical Chemistry: - Help students easily identify what they need to know with a concise summary of required practical work examined in the A-level specifications. - Consolidate understanding of practical work, methodology, mathematical and other skills out of the laboratory with exam tips and knowledge check questions, with answers in the back of the book. - Provide plenty of opportunities for students to improve exam technique with sample answers, examiners tips and exam-style questions. - Offer support beyond the Student books with coverage of methodologies and generic practical skills not focused on in the textbooks.

This guide takes you through Paper 1 and Paper 2 of the new AQA GCSE English Language Exam. Mr Salles teaches you how to aim for the top level 8

and 9 grades. In fact, he shows you how to get 100% and beyond.
