Emanuel Lasker was the longest-reigning world champion (1894-1921) and remained one of the world's top 10 players for nearly four decades. He competed against top players such as Capablanca, Rubinstein and Alekhine at the height of their game, and was consistently successful, yet almost no one studies his games today. Lasker is often overlooked by the modern chess player, and the secrets of his success remain a mystery. Chess journalist Andy Soltis reveals for the first time the winning formula behind Lasker's phenomenal achievements. With over 100 annotated games, Soltis analyses the tricks, traps and techniques behind the winning moves, and makes Lasker's methods accessible to today's players.

challenge the chess ideologies of traditional central European masters. This first full-scale biography of Nimzowitsch chronicles his early life in Denmark, his family and education, and his fascination with the game that would become the focus of his life. Also included are explorations of his tournament games and records, his dispute with influential chess teacher Siegbert Tarrasch, and his role in the development of Hypermodern Chess. With detailed accounts of nearly 450 games and the only narrative of Nimzowitsch from 1914 to 1924, a period formerly cloaked in mystery, this volume offers the most thorough profile available of one of chess's greatest innovators.

Hers was a fascinating career as an independent professional in an era where this was rare for women in any endeavor. In this book her games are brought to life utilizing her own annotations, as well as the notes of her contemporaries including Capablanca, Alekhine, Fine and others. All of her known games, as well as samples of her writings on the subject of chess are included. Beyond the technical aspect of her games, a brief biography and eulogies by her friends and colleagues reveal her life as a player and as a human being. Included are her comparisons of Russia where she was born and England where she resided as an adult, her philosophy of life, as well as her perspectives on chess in England and during World War II. Above all, a view is provided of the life of the chess professional during the golden age of Lasker, Capablanca, Alekhine, and Euwe.
