Grammar Anthology is a collection of students' essays as the outcome of Grammar in Discourse course taught in 5 classes. This writing project is assigned to provide opportunity for students to practice composing academic writing while applying theories of Grammar in Discourse . Moreover, as designed in the Outcome- Based Curriculum, this anthology can be a media for the students to express their opinions and map ideas based on contemporary facts they found in everyday life contexts. As we are reading and editing the anthology, we cannot help but be profoundly impressed by the perspectives our students have brought up in their writings. In this book, you would see how English grammatical units which are adapted from Grammar and Beyond book 3 (Blass et al., 2013) are rooted. The grammatical units such as subordinators and prepositions, transition words and phrases, adverb clauses, comparatives, parallel structure, the passives, and 'it' constructions are studied and implemented to express ideas on cause-effect, comparison-contrast, classifications and definitions, and problem solution. Those units are employed to discuss factual life subjects such as cultural values, inventions, human motivation, millennials and media in short essays. These essays are then classified in accordance to the following categories: Social Responsibility, Human Behaviour, Business dan Nutrition and Health. We do not think we would be able to produce such interesting essays without the help and support from our colleagues in the Faculty of Cultural Studies and Department of Languages and Literature at Brawijaya University. Therefore, we would also like to express our gratitude to Faculty of Cultural Studies and Department of Languages

Featuring hundreds of original, color photographs, this fascinating study of New Guinea chronicles the rituals and daily life of this remote and culturally rich region. *Between the Tides* offers a compelling mix of New Guinean storytelling, history, natural history, politics, and culture. David Pickell brings warmth and intelligence to his subject, and Kal Muller's photographs are surprising and evocative. Together, author and photographer show how an isolated, nomadic past meets a worldly, urban future, history confronts superstition, and a false and imposed sense of shame yields to a new, and still fragile, pride. Their journey took them from the dusty New Guinea frontier town of Timika to tiny Lakahia island, along two hundred miles of twisting mangrove creeks and the relentlessly uncooperative Arafura sea. What they found was a culture facing the delicate, sometimes humorous, occasionally painful, and always interesting process of change.
