Functional Behavioral and Treatment

What Is a Functional Behavioral Assessment? An FBA is an approach to figuring out why a student acts a certain way. It uses different methods to understand what's behind behavior challenges. The basic idea is that a student's behavior serves a purpose.

What Is Functional Behavioral Assessment (FBA) ...

For a mental health professional to be able to effectively help treat a client and know that the treatment selected worked (or is working), he/she first must engage in the clinical assessment of the client, or collecting information and drawing conclusions through the use of observation, psychological tests, neurological tests, and interviews ...

Module 3: Clinical Assessment, Diagnosis, and Treatment ...

Our results show that task-based functional connectivity is a biomarker of ADHD. Our analytic framework provides a template approach that explicitly ties behavioral assessment measures to both clinical diagnosis, and functional connectivity. This may differentiate otherwise similar diagnoses, and promote more efficacious intervention strategies.

Frontiers | Linking ADHD and Behavioral Assessment Through ...

A functional behavioral assessment (or FBA) is a process that identifies a specific or target behavior that interferes with a student's education. The assessment attempts to designate the particular behavior, identify the factors that support the behavior, and determine the purpose of the behavior.

What is a Functional Behavior Assessment?
