Functional Textiles for Improved Performance, Protection ...

Since time immemorial, the acoustics of a room have been improved by textiles such as carpets, upholstery and curtains.

Improved performance and functionality

The preparation methods of functional textiles are divided into two categories.

One is to prepare the functional fiber first and then weave it into textile. Through the method of blending and composite spinning, the functional additives of uniform dispersion will be added to the fiber to obtain functional fiber; the surface of conventional fiber is processed, for example, to introduce a resin with a specific function on the surface of the fiber,
