Like many sensible learners, you've realised that Grade 11 is the make or break year, not Grade 12. The sooner you choose your tools for the challenge and get down to work, the better. The classroom and your notes are often insufficient preparation for tests and exams. It's all about systematic practise and applying your knowledge.

ED-L2L, Learning to Live in the Knowledge Society, is one of the co-located conferences of the 20th World Computer Congress (WCC2008). The event is organized under the auspices of IFIP (International Federation for Information Processing) and is to be held in Milan from 7th to 10th September 2008. ED-L2L is devoted to themes related to ICT for education in the knowledge society. It provides an international forum for professionals from all continents to discuss research and practice in ICT and education. The event brings together educators, researchers, policy makers, curriculum designers, teacher educators, members of academia, teachers and content producers. ED-L2L is organised by the IFIP Technical Committee 3, Education, with the support of the Institute for Educational Technology, part of the National Research Council of Italy. The Institute is devoted to the study of educational innovation brought about through the use of ICT. Submissions to ED-L2L are published in this conference book. The published papers are devoted to the published conference themes: Developing digital literacy for the knowledge society: information problem solving, creating, capturing and transferring knowledge, commitment to lifelong learning Teaching and learning in the knowledge society, playful and fun learning at home and in the school New models, processes and systems for formal and informal learning environments and organisations Developing a collective

Current Trends in the Development and Teaching of the four Language Skills builds connections from theory in the four language skills to instructional practices. It comprises twenty-one chapters that are grouped in five sections. The first section includes an introductory chapter which presents a communicative competence framework developed by the editors in order to highlight the key role the four skills play in language learning and teaching. The next four sections each represent a language skill: Section II is devoted to listening, Section III to speaking, Section IV to reading and Section V to writing. In order to provide an extensive treatment of each of the four skills, each section starts with a theoretical chapter which briefly illustrates advances in the understanding of how each skill is likely to be learned and taught, followed by four didactically oriented chapters authored by leading international specialists. These pedagogical chapters deal specifically with four key topics: 1) areas of research that influence the teaching of a particular skill; 2) an overview of strategies or techniques necessary for developing a particular skill; 3) an approach to the academic orientation of a particular skill, and 4) unique aspects of teaching each skill. Moreover, all chapters incorporate two common sections: pre-reading questions at the beginning of the chapter in order to stimulate readers' interest in its content, and a section entitled suggested activities at the end of the chapter in order to allow readers put the ideas and concepts presented into practice. The accessible style and practical focus of the volume make it an ideal tool for teachers, teacher trainers, and teacher trainees who are involved in teaching the four language
