*My horn on my 4300 just stopped working. Can you tell me ...*

1. Locate fuse 28 in the driver's side kick panel fuse box and verify 12 volts is present and the fuse is OK.
2. Locate the horn relay on the back of this same fuse box and verify that ground is present at the relay when the hornbutton is activated. The horn switch grounds the relay sending voltage from fuse 28 to the horns.

different cars different places.  
look on back of fuse cover it is  
either on inside fuse box, or  
under hood fuse box. if the fuse is  
ok! check the relay for the horn in  
under hood fuse box. if that is  
good.disconnect wire from horn,  
run a wire from battery positive  
to the horn it self, if it works now,  
it is the horn relay or button in  
car.
