Architecture For The World

Information Architecture for the World Wide Web: Designing Large-Scale Web Sites by Peter Morville and Louis Rosenfeld was written in 2006 but is often cited at the book to read for Information Architecture. Be sure it's a good book and — to counter an argument raised for another review I did – it's still mostly relevant today.

### Information Architecture for Web Design: Step by Step ...

Information architecture is to a website, library or shop, what the concrete foundations are to a house. To create the best possible foundations, we need to create an IA document. Creating the document happens in a few stages that will be explained below. Companies should spend time on this, and see it as a worthwhile investment.
