▯A story of excruciating power.▯▯The New York Times The classic, bestselling biographical novel of Vincent Van Gogh Since its initial publication in 1934, Irving Stone's Lust for Life has been a critical success, a multimillion-copy bestseller, and the basis for an Academy Award-winning movie. The most famous of all of Stone's novels, it is the story of Vincent Van Gogh▯brilliant painter, passionate lover, and alleged madman. Here is his tempestuous story: his dramatic life, his fevered loves for both the highest-born women and the lowest prostitutes, and his paintings▯for which he was damned before being proclaimed a genius. The novel takes us from his desperate days in a coal mine in southern Belgium to his dazzling years in the south of France, where he knew the most brilliant artists (and the most depraved whores). Finally, it shows us Van Gogh driven mad, tragic, and triumphant at once. No other novel of a great man's life has so fascinated the American public for generations.

VINCENT VAN GOGH: A Vincent Van Gogh Biography Vincent Van Gogh is one of the world's most well-known and revered artists - few people in the Western world have not heard his name and most will recognise his face from one of his many self-portraits or the numerous artistic representations of him on screen. His red beard, prominent cheekbones and expressive eyes make him a face that few can forget. Many of his paintings are instantly recognisable and reproductions of his most famous works hang in public buildings, workplaces and homes all over the world; The Starry Night, Sunflowers, Portrait of Dr Gachet, Café Terrace at Night and the Wheatfields paintings are some of the most widely reproduced images in the world. In fact, Van Gogh regularly comes up at the top of lists of the most famous and important artists to have ever lived. Few artists who came after Van Gogh would fail to acknowledge the legacy of his work and the impact it had on the progression of art in the twentieth century, which he barely lived to see.

A novel about Sigmund Freud--the complex man whose life was a tumultuous drama of courage, conflict, love, and daring, as he ripped away the shrouds of secrecy from our shames, our guilts, our sexuality, and our human potential.
