If you want to use Adobe Flex to build production-quality Rich Internet Applications for the enterprise, this groundbreaking book shows you exactly what's required. You'll learn efficient techniques and best practices, and compare several frameworks and tools available for RIA development -- well beyond anything you'll find in Flex tutorials and product documentation. Through many practical examples, the authors impart their considerable experience to help you overcome challenges during your project's life cycle. Enterprise Development with Flex also suggests proper tools and methodologies, guidelines for determining the skill sets required for the project, and much more. Choose among several frameworks to build Flex applications, including Cairngorm, PureMVC, Mate, and Clear Toolkit Apply selected design patterns with Flex Learn how to extend the Flex framework and build your own component library Develop a sample AIR application that automatically synchronizes local and remote databases to support your sales force Get solutions for leveraging AMF protocol and synchronizing Flex client data modifications with BlazeDS-based servers Determine the actual performance of your application and improve its efficiency

You know what happens when bad boys get what they wish for? Everything. . . New York Times Bestselling Author Lori Foster Playing Doctor Attitude makes a huge difference in bed. It could be Axel Dean's motto. The sexy physician likes his women with sensual moxie, and Libby Preston definitely seems to fit that bill. There's that naughty grin. That hot bod. Her eager kisses and cheeky insults. Her . . . admitted virginity. Whoa. Okay, cue cold shower. Axel may not be an honorable man, but he has his limits. Except Libby won't take no for an answer. She's determined to have someone show her what she's been missing, and suddenly, Axel can't bear to think of Libby playing doctor with anyone else. . . USA Today Bestselling Author Erin McCarthy The Lady of the Lake Pro baseball player Dylan Diaz is pretty sure he's going to hell. When you rescue a drowning woman from a lake your first thought should be, "Are you okay?" not, "Can I make mad, passionate love to you?" But the minute sputtering kindergarten teacher Violet Caruthers is on Dylan's boat, that's all he can think about. Maybe it's the potent combo of a nun's personality inside a stripper's body. Maybe it's the way she drives him crazy with desire and laughter. Or maybe, Dylan's finally found what's been missing in his life, and he's not about to let go. . .

The QRI-5 has long led the field in offering students and teachers alike a reliable and easy-to-use informal assessment instrument. This Fifth Edition continues to emphasize authentic assessment of children's reading abilities, from the most emergent readers to advanced readers. One of the keys to the success of the QRI-5 is that it contains narrative and expository passages at each pre-primer through high school level. All are self-contained selections highly representative of the structure and topic of materials found in basal readers and content-area textbooks. This new edition includes new narrative texts that are even easier than the pre-primer passages previously included. At the same time, it provides graded word lists and numerous passages designed to assess the oral reading, silent reading, or listening comprehension of a student as well as questions to assess prior knowledge. Instructors can measure comprehension by retelling passages, using implicit and explicit questions, and using other devices. What's New in the QRI-5?

- # Narrative texts even easier than the pre-primer passages previously included, as well as another narrative to all primary grade levels.
- # Passages at pre-primer through second grade levels that are presented with and without pictures.
- # Map and illustrations as part of expository selections at fourth through high school levels.
- # Accompanying DVD content has been expanded to include
 - * Examples of students reading orally
 - * Scored protocols to accompany readings
 - * Directions for administering each segment of the QRI
 - * Tables/Charts that increase consistency of administration, scoring, and interpretation
 - * All student and examiner copies

Based on the successful Baby Owner's Manual, The Baby Owner's Maintenance Log presents a refreshing alternative to traditional sugar-sweet baby journals. Hip parents can record all major milestones and measurements in these pages, including the arrival of the unit, fuel preferences and speech activation. Spiral binding, hilarious illustrations and a bound-in envelope for keepsakes make this guided journal a great shower gift.

The central aim of this collection is to trace the presence of Jewish tradition in contemporary philosophy. This presence is, on the one hand, undeniable, manifesting itself in manifold allusions and influences – on the other hand, difficult to define, rarely referring to openly revealed Judaic sources. Following the recent tradition of Lévinas and Derrida, this book tentatively refers to this mode of presence in terms of "traces of Judaism" and the contributors grapple with the following questions: What are these traces and how can we track them down? Is there such a thing as "Jewish difference" that truly makes a difference in philosophy? And if so, how can we define it? The additional working hypothesis, accepted by some and challenged by other contributors, is that Jewish thought draws, explicitly or implicitly, on three main concepts of Jewish theology, creation, revelation and redemption. If this is the case, then the specificity of the Jewish contribution to modern philosophy and the theoretical humanities should be found in – sometimes open, sometimes hidden – fidelity to these three categories. Offering a new understanding of the relationship between philosophy and theology, this book is an important contribution to the fields of Theology, Philosophy and Jewish Studies.

Filled with recipes that have stood the test of time as well as fascinating anecdotes and tales, Tea Fit for a Queen reveals how the tradition of afternoon tea started in royal Britain. Over 40 charming recipes include everything from delicate finger

sandwiches to Victoria sponge cake, Chelsea Buns and a Champagne Cocktail. In these pages learn about the infamous royals and their connection to the history of tea; why jam pennies were Queen Elizabeth II's favourite tea time treat and how mead cake came to be served during Henry VIII's reign. Discover what cake William and Catherine selected for their wedding and hear why orange-scented scones became a royal tradition at Kensington Palace. Tea Fit for a Queen presents a taste of palace etiquette to take home.

Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

If you can build websites with CSS and JavaScript, this book takes you to the next level—creating dynamic, database-driven websites with PHP and MySQL. Learn how to build a database, manage your content, and interact with users. With step-by-step tutorials, this completely revised edition gets you started with expanded coverage of the basics and takes you deeper into the world of server-side programming. The important stuff you need to know: Get up to speed quickly. Learn how to install PHP and MySQL, and get them running on both your computer and a remote server. Gain new techniques. Take advantage of the all-new chapter on integrating PHP with HTML web pages. Manage your content. Use the file system to access user data, including images and other binary files. Make it dynamic. Create pages that change with each new viewing. Build a good database. Use MySQL to store user information and other data. Keep your site working. Master the tools for fixing things that go wrong. Control operations. Create an administrative interface to oversee your site.

COURAGE > COWARDS As we approach the most important presidential election in America's history, something has been lost among all of the debates, attack ads, and super- PACs—something that Americans used to hold in very high regard: THE TRUTH. Glenn Beck likes to say that "the truth has no agenda"—but there's another side to that: people who have agendas rarely care about the truth. And, these days, it seems like everyone has an agenda. The media leads with stories that rate over those that matter. Politicians put lobbyists and electability over honesty. Radicals alter history in order to change the future. In Cowards, Glenn Beck exposes the truth about thirteen important issues that have been hijacked by deceit. Whether out of spite, greed, or fear, these are the things that no one seems to be willing to have an honest conversation about. For example: * How our two-party POLITICAL SYSTEM often leaves voters with NO GOOD OPTIONS. * How extremists are slowly integrating ISLAMIC LAW into our SOCIETY. * How PROGRESSIVE "religious" leaders like JIM WALLIS are politicizing the Bible. * How the CARTEL VIOLENCE on our border is FAR WORSE than people realize. * How "LIBERTARIAN" has been INTENTIONALLY turned into a DIRTY WORD. * How GEORGE SOROS has amassed enough MONEY and POWER to INFLUENCE entire ECONOMIES. In some cases, the truth is out there, but people simply don't want to hear it. It's much easier, and certainly a lot more convenient, to keep our blinders on. After all, as a quote attributed to President James Garfield made clear, "The truth will set you free, but first it will make you miserable." Miserable or not, the truth can no longer be something we hope for; it must be something we live. When courage prevails, cowards do not—and this book was written to ensure that's exactly what happens.
