Leading Australian journalist John Lyons will take readers on a fascinating personal journey through the wonders and dangers of the Middle East. From the sheer excitement of arriving in Jerusalem with his wife and eight-year-old son, to the fall of dictators and his gripping account of what it feels like to be taken by Egyptian soldiers, blindfolded and interrogated, this is a memoir of the Middle East like no other. A debate that's 2,000 years old, and running... Do Jews need Jesus? It ' s an age-old debate with eternal ramifications. If Jesus is not the Jewish Messiah, if He is not the savior of the world, if He is not the promised redeemer God sent to restore Israel and redeem the nations (Isaiah 49:6), then bringing His message to the Jewish people is a grave threat to their security. But if He is the prophet God promised to raise up, if God did indeed command Israel to follow Him, and if the Jews will be held accountable by God if they

don't accept Jesus, then sharing His message is beyond imperative. Jesus is either " Lord of all or not Lord at all. " The stakes couldn't be higher. Jews Don't Need Jesus... and Other Misconceptions settles this dispute with biblical evidence. It argues that believing in Jesus isn't apostasy; it's obedience, and it leads to eternal blessing. That's what makes this book critical for Jewish people or anyone in gospel ministry to the Jews.

Forced to escape from a country gripped in a religious revolution, David and his family run for their lives in an attempt to find refuge. "The conflict between Palestine and Israel is one of the most highly publicized and bitter struggles of modern times, a dangerous tinderbox always poised to set the Middle East aflame, and to draw the United States into the fire. In this volume the author illuminates the history of the problem, reducing it to its very essence. He explores the Palestinian-Israeli dispute in twenty-year segments, to highlight the historical complexity of the conflict throughout successive decades. Each chapter starts with an examination of the relationships among people and events that marked particular years as historical stepping stones in the evolution of the conflict, including the 1897 Basel Congress, the 1917
