Until the Brexit referendum, there was widespread doubt as to whether English nationalism existed at all, at least beyond a small fringe. Since then, it has come to be regarded an obvious explanation for the vote to Leave the European Union. Subsequent opinion polls have raised doubts about the extent of continuing English commitment to the Union of the United Kingdom itself. Yet even as Englishness is apparently reshaping Britain's place in world and perhaps, ultimately, the state

itself, it remains poorly understood. In this book Ailsa Henderson and Richard Wyn Jones draw on data from the Future of England Survey, a specially commissioned public attitudes survey programme exploring the political implications of English identity, to make new and original arguments about the nature of English nationalism. They demonstrate that English nationalism is emphatically not a rejection of Britain and Britishness. Rather, English nationalism combines a sense of grievance about England's place within the United Kingdom with a fierce commitment to a particular vision of Britain's past, present, and future. Understanding its Janus-faced nature - both England

Download File PDF The Wall Street Journal

and Britain - is key not only to understanding English nationalism, but also to understanding the ways in which it is transforming British politics.

On any given day, millions of Wall Street Journal readers put aside the serious business and economic news of the day to focus first on the paper's middle column (a.k.a. the A-hed), a virtual sound-bubble for light literary fare -- a short story, a tall tale, an old yarn, a series of vignettes, and other unexpected delights that seem to "float off the page." In this first-ever compendium of middle-column pieces, you'll find an eclectic selection of writings, from the outlandish to the oddly

enlightening. Read about: □ one man's attempt to translate the Bible into Klingon □ sheep orthodontics, pet-freezing, and toad-smoking □ being hip in Cairo, modeling at auto shows, piano-throwing □ the fate of mail destined for the World Trade Center after 9/11 □ the plight of oiled otters in Prince William Sound ...and much, much more. Edited by 20-year Journal veteran Ken Wells, and with a foreword by Liar's Poker author Michael Lewis, *Floating Off the Page* is the perfect elixir for fans of innovative prose in all its forms and function.

"A casually wondrous experience; it made me feel like the city was unfolding beneath my feet." —Jia

Archives author of Trick Mirror In place-names lie stories. That's the truth that animates this fascinating journey through the names of New York City's streets and parks, boroughs and bridges, playgrounds and neighborhoods. Exploring the power of naming to shape experience and our sense of place, Joshua Jelly-Schapiro traces the ways in which native Lenape, Dutch settlers, British invaders, and successive waves of immigrants have left their marks on the city's map. He excavates the roots of many names, from Brooklyn to Harlem, that have gained iconic meaning worldwide. He interviews the last living speakers of Lenape, visits the harbor's forgotten islands, lingers on street corners named

for ballplayers and saints, and meets linguists who study the estimated eight hundred languages now spoken in New York. As recent arrivals continue to find new ways to make New York's neighborhoods their own, the names that stick to the city's streets function not only as portals to explore the past but also as a means to reimagine what is possible now.

A harrowing account of the Cuban missile crisis and how the US and USSR came to the brink of nuclear apocalypse. Nearly thirty years after the end of the Cold War, today's world leaders are abandoning disarmament treaties, building up their nuclear arsenals, and exchanging threats

Download File PDF The Wall Street Journal

of nuclear strikes. To survive this new atomic age, we must relearn the lessons of the most dangerous moment of the Cold War: the Cuban missile crisis. Serhii Plokhy's *Nuclear Folly* offers an international perspective on the crisis, tracing the tortuous decision-making that produced and then resolved it, which involved John Kennedy and his advisers, Nikita Khrushchev and Fidel Castro, and their commanders on the ground. In breathtaking detail, Plokhy vividly recounts the young JFK being played by the canny Khrushchev; the hotheaded Castro willing to defy the USSR and threatening to align himself with China; the Soviet troops on the ground clearing jungle foliage in the

Download File PDF The Wall Street Journal

tropical heat, and desperately trying to conceal nuclear installations on Cuba, which were nonetheless easily spotted by U-2 spy planes; and the hair-raising near misses at sea that nearly caused a Soviet nuclear-armed submarine to fire its weapons. More often than not, the Americans and Soviets misread each other, operated under false information, and came perilously close to nuclear catastrophe. Despite these errors, nuclear war was ultimately avoided for one central reason: fear, and the realization that any escalation on either the Soviets' or the Americans' part would lead to mutual destruction. Drawing on a range of Soviet archival sources, including previously classified

Download File PDF The Wall Street Journal

KGB documents, as well as White House tapes, Plokhy masterfully illustrates the drama and anxiety of those tense days, and provides a way for us to grapple with the problems posed in our present day.

A panoramic, provocative account of the clash between British imperialism and Arab jihadism in Africa between 1870 and 1920. The Ottoman Sultan called for a "Great Jihad" against the Entente powers at the start of the First World War. He was building on half a century of conflict between British colonialism and the people of the Middle East and North Africa. Resistance to Western violence increasingly took the form of radical Islamic

Download File PDF The Wall Street Journal

Insurgency. Ranging from the forests of Central Africa to the deserts of Egypt, Sudan, and Somaliland, Neil Faulkner explores a fatal collision between two forms of oppression, one rooted in the ancient slave trade, the other in modern "coolie" capitalism. He reveals the complex interactions between anti-slavery humanitarianism, British hostility to embryonic Arab nationalism, "war on terror" moral panics, and Islamist revolt. Far from being an enduring remnant of the medieval past, or an essential expression of Muslim identity, Faulkner argues that "Holy War" was a reactionary response to the violence of modern imperialism.

Archives A timely exploration of intellectual dogmatism in politics, economics, religion, and literature—and what can be done to fight it Polarization may be pushing democracy to the breaking point. But few have explored the larger, interconnected forces that have set the stage for this crisis: namely, a rise in styles of thought, across a range of fields, that literary scholar Gary Saul Morson and economist Morton Schapiro call “fundamentalist.” In *Minds Wide Shut*, Morson and Schapiro examine how rigid adherence to ideological thinking has altered politics, economics, religion, and literature in ways that are mutually reinforcing and antithetical to the open-

Archives
mindedness and readiness to compromise that animate democracy. In response, they propose alternatives that would again make serious dialogue possible. Fundamentalist thinking, Morson and Schapiro argue, is not limited to any one camp. It flourishes across the political spectrum, giving rise to dueling monologues of shouting and abuse between those who are certain that they can't be wrong, that truth and justice are all on their side, and that there is nothing to learn from their opponents, who must be evil or deluded. But things don't have to be this way. Drawing on thinkers and writers from across the humanities and social sciences, Morson and Schapiro show how

Download File PDF The Wall Street Journal Archives

We might begin to return to meaningful dialogue through case-based reasoning, objective analyses, lessons drawn from literature, and more. The result is a powerful invitation to leave behind simplification, rigidity, and extremism—and to move toward a future of greater open-mindedness, moderation, and, perhaps, even wisdom.

From one of our most innovative and celebrated authors, the definitive take on the wildest story of the year— the David-vs.-Goliath GameStop short squeeze, a tale of fortunes won and lost overnight that may end up changing Wall Street forever.
