One of the main subjects of Writing Space is hypertext, a technique that allows scientists, scholars, and creative writers to construct texts that interact with the needs and desires of the reader. Bolter explores both the theory and practice of hypertext, demonstrating that the computer as hypertext represents a new stage in the long history of writing, one that has far-reaching implications in the fields of human and artificial intelligence, cognitive science, philosophy, semiotics, and ...

Writing Space: the Computer, Hypertext, and the History of ...

Interestingly, Bolter made Writing Space available as a hypertext document so he could demonstrate the points he was trying to make. The problem is that the book requires a Macintosh with 1 megabyte of RAM, System 6.0 or greater, Finder 6.0 or greater, and at least two disk drives (hard disk recommended).

(1993). Writing space: the computer, hypertext and the history of writing. History of European Ideas: Vol. 17, No. 2-3, pp. 349-350.

Writing space: the computer, hypertext and the history of ...

Arriving on the literary scene in the early '90s. Jay David Bolter's Writing Space: The Computer, Hypertext, and the History of Writing is one of those pro-hypertext books whose earnest boosterism leaves you feeling a little embarrassed. Nonetheless, Bolter's book has recently been seen changing hands around graphic design graduate programs -- I once heard it referred to as "the only interesting writing about new media."

Writing Space - Eastgate: serious hypertext

The emphasis on topography in hypertext, or, in Bolter's words, a writing with spaces, consists of two separate claims: first, it proposes the equivalence of visual and textual information as screen images; second, it requires the connection of separate images within a linked structure available to the reader.
